

Ferno AS190 Orange Splint Set

The Ferno AS190 Vacuum splints are intended to stabilise injuries on patients during transport. They are suited for fixation of patients with hand, wrist, arm, leg, shoulder and/or hip injuries. The splints moulds around the individual fracture giving an optimal and comfortable support.

Set consists of: Arm, Long arm, Leg, Pump, Bag and Repair kit
 AS100 and AS120 - Immobilisation of arm, forearm and wrist fractures.
 AS140 - Immobilisation of lower leg on adult and full leg, hip or shoulder on child.
 Also works as a vacuum mattress for babies.

Material:

Outer material: Polyester fibre, PVC coated (flame retardant)

Inner bag: Polyester

Granules: Styroporgranules (flame retardant)
